

QUALITY POLICY

**A man is able to do good things
if he must – and the best things, only if he wants to...**

The reputation of PE a PE METAL, s.r.o. is its most valuable asset, so it must be protected by all employees.

The continuous evaluation of established methodologies of measures for **continuous improvement of the quality management system** and individual company processes and their use is the prerequisite for increasing the overall level of PE a PE METAL, s.r.o., and, in particular, strengthening its market position.

We are determined to comply with binding obligations and all relevant requirements of Czech and European legislation.

The **professional competence and qualification** of our employees is crucial for improving manufacturing efficiency and productivity. All our employees are the cornerstone of PE a PE METAL, s.r.o.

The Company strives to create the best possible working conditions for its employees, thus protecting their **safety and health**.

In all our activities, we support **environmental protection** through consistent waste sorting, including pollution prevention.

We also pay great attention to **production materials**. We purchase materials exclusively from verified suppliers.

Thanks to a high level of production organisation, technology and continuous innovation process we have been managing to deliver our products in the required **quality and on time**.
